Electronic Signature Tablets

SECURE

PAPERLESS

SIMPLE

E-SIGNATURE

Evolis electronic signature tablets— secure and easy to use

◎ Ensure the integrity and security of your signed documents

- **Signed tamper-proof documents:** the signature is an integral part of the document and cannot be copied or reproduced.
- **Advanced encryption:** data transfer to the computer is secure with AES encryption. Certified by the eIDAS Regulation.

◎ Guarantee the identity of the signatory

- **High resolution signature,** copy-proof.
- **Recording of biometric data** of signature: angle, pressure, speed, etc.

◎ Choose a robust and easy to use product

- **Plug and play:** as soon as it's plugged in, it's good to go.
- **Ultra-resistant TFT screen .**
- **Service life of tablet:** up to 30 million signatures*.

◎ Increase your proximity with signatories

- **Direct contact with the signatory** unlike remote solutions.
- **Opportunity to communicate** with the signatory for commercial purposes or to provide information.

◎ Boost your productivity

- **Completely paperless process:** gone are the days of time-consuming printing and scanning.
- **Automated process** for distributing, storing, and archiving documents.
- **Instant availability** of digitally stored documents.

◎ Reduce costs

- **Optimized staff costs** compared to a paper-based process.
- **Reduced cost of supplies** (printers, paper, ink, etc.).

◎ Enhance your brand image

- **Modern image.**
- Use your tablet as a **communication tool** with slideshow manager* to publicize information and advertise commercial offers.
- **Reduce your ecological footprint** by using less paper.

◎ Offer an optimal user experience

- **Natural signing experience** thanks to the stylus pen and flat tablet design.
- **Quick and convenient process.**

*available on some models

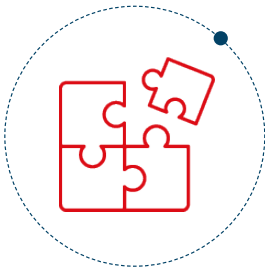

Software technologies & solutions adapted to your needs

Choose the tablet technology for your preferred signing experience.

- **Resistive technology:** the signature is made by **simply pressing the tablet** with an **interchangeable stylus pen** that does not require any electronics or power supply.
- **ERT technology** (Electromagnetic Resonance Technology): the signature is made with a **special stylus pen** including a sensor to ensure a **precise and high quality signature capture**, while suppressing any parasitic traces from hands and jewelry, etc.

A software offer adapted to your information system.

- **signoSign/2:** secure PDF creation and signature software. **Quick to install and set up.** Main features include:
 - Creation of document templates with predefined signature zones
 - Personalization and automation of the document pathway: distribution, storage, and archiving, etc.
- **Software Development Kit:** the SDK for Evolis signature tablets is available free of charge for **rapid and customized integration into your existing IT environment.**
