

Kiosk Floor Stand

Upgrade Your Customer Service

Bring your own device. apg's Kiosk is designed to not be exclusive but to accommodate any brand – shape – and model of peripheral that you wish to use. Universal Vesa patterns and intentional design give you the freedom to have our Kiosk work for you. Whether your goal is improving wait times, convenience, or providing a more personalized experience, apg's Kiosk has you in mind.

Streamline Your Checklane

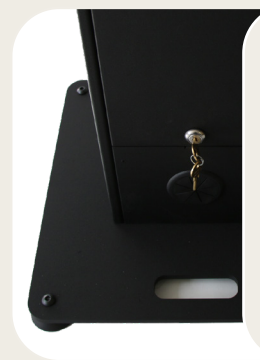

The new apg kiosk provides a simple yet flexible solution for self-service ordering and point of sale. The floor standing unit is designed with the durability to endure fast-paced self-service environments. The kiosk supports most popular touchscreen POS and tablet systems, and includes built in brackets to securely install a receipt printer, barcode reader, and payment terminal.

The freedom to accommodate the peripherals of your choice

Integrated cable routing and cord management

Robust heavy-duty construction

Removable back panel provides convenient device access
