

ANKER

THE POS COMPANY

SELF-CHECKOUT

ANKER Self-checkout*

HIGH SERVICE AND EFFICIENCY

Modern shopping experiences

The ANKER Self-Checkout offers customers smooth, convenient shopping experience while easing the burden on cashiers. The additional checkout stations reduce queues and increase customer throughput.

Cashiers at stationary checkouts can now operate on the sales floor to actively improve customer service there. The self-checkout is easy to operate and manage.

Advantages

- Flexibility through modular design
- Simple software integration due to standard peripherals
- Reliability due to high-quality brand components
- UX design for high customer acceptance
- Space-saving footprint and low installation depth
- LED status illumination
- Intuitive control panel
- Compatible with all common payment terminals
- Slim and frameless design
- Available as a stand-alone model (for column mounting, desktop table mounting or as a table solution) or for wall mounting

Payment options

- Depending on the used payment terminal**
- Depending on the installed software
- Optional connection to cash management systems

Field of application

- Food retailing, DIY, drugstore, retail; gastronomy etc.

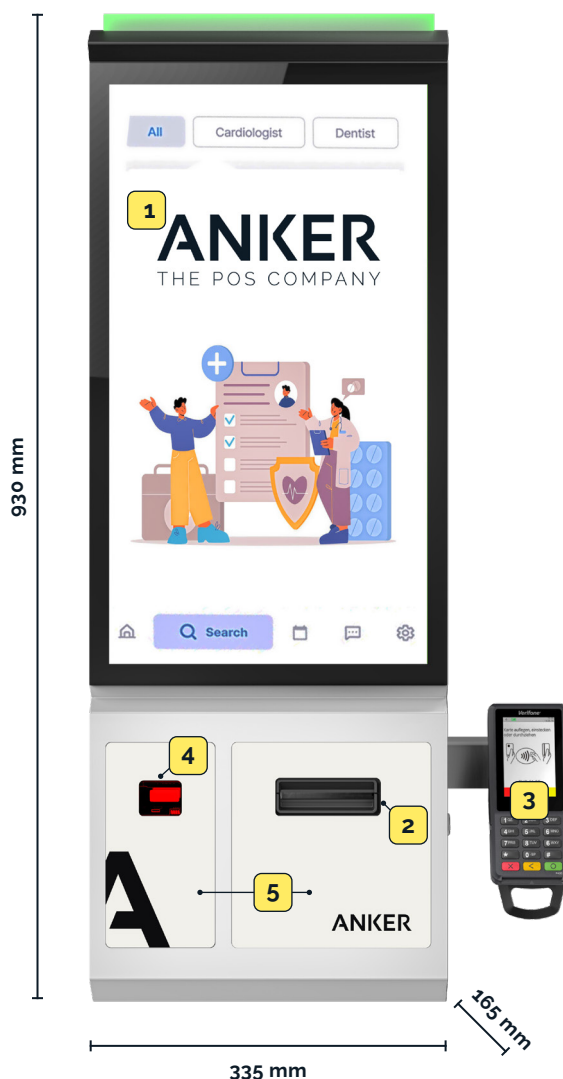

Configuration

1 23,8" touchscreen	4 Barcode scanner
2 Receipt printer	5 Changeable design covers
3 Device-specific holder for a payment terminal**	

SCO in RAL9005 deep black

SCO in RAL 9016 white

*Status prototype to change without notice

**Payment terminal not included
